

TECHNICAL SPECIFICATIONS

# MULTILIFT XR10S

# MULTILIFT

## BUILT TO PERFORM

# MORE PAYLOAD WITH OPTIMIZED DESIGN

**Strong, robust and exceptionally light - a contradiction in terms but Multilift XR10, the latest addition to the Multilift XR hooklift family, is all that and much more! With XR10 you can carry bigger payloads and get a quick return on your investment.**

## More power to your business

The Multilift XR10 with 22,000 lb lifting capacity offers you maximum performance and unparalleled functionality. The equipment's low weight combined with extreme strength make it an ideal tool for all your purposes. Make the most of your truck by fitting it with an XR10 - add a Hiab crane to further enhance your productivity. Carry demountable bodies up to 20 feet long and handle bigger payloads more safely and more reliably than ever before.

## Increased versatility and larger payloads

Using the latest 3D-CAD methods and modern production technology to design and manufacture the XR range, we have minimized the welding needed in construction to give you a stronger structure. The exceptional low weight to high strength ratio enables larger payloads, enhances the versatility of the vehicle and maximizes its productivity.

## Safety is key

As with all MULTILIFT demountables, safety is a key priority in the XR series. Safety features include load-holding valves directly on the cylinders and a tipping lock mechanism jib to main rams interlock.

## Technical data

| Type                             | XR10 Range      |            |            |
|----------------------------------|-----------------|------------|------------|
| Capacity (lbs)                   | 22 000          |            |            |
| GVW of the vehicle (lbs)         | 35 000 / 42 000 |            |            |
| Model                            | XR10S.3650      | XR10S.4150 | XR10S.5100 |
| Container length (internal) (ft) | 12 - 14         | 14 - 16    | 17 - 19    |
| Common CA/CT (in)                | 128             | 144        | 174        |
| Equipment weight (lbs)           | 2 290           | 2 290      | 2 360      |
| Tipping angle (°)                | 50              | 50         | 50         |
| Clear Frame (in)                 | 163             | 181        | 217        |
| Hook height (in)                 | 54 / 62         |            |            |
| Chassis Height (in)              | Up to 40        |            |            |

**Disclaimer.** Hiab cranes have been built to meet the highest standards of safety and service life and have been thoroughly tested. Strength calculations for this model have been carried out in accordance with EN13001 in fatigue class S2. Cargotec's certified Quality Assurance System complies with ISO 9001. Some of the items in our literature may be extra equipment. Certain applications may require an official permit. We reserve the right to change technical specifications without prior notice. Hiab cranes produced for EU-countries are CE marked and comply with the European Standard EN12999.

Hiab is the world's leading provider of on-road load handling equipment. Customer satisfaction is the first priority for us. Hiab's product range includes HIAB loader cranes, JONSERED recycling and forestry cranes, LOGLIFT forestry cranes, MOFFETT truck mounted forklifts, and MULTILIFT demountables, as well as DEL, WALTCO, and ZEPRO tail lifts.
